

Where: KELOLAND Television
Sioux Falls, SD

Job Title: Weather Intern

Contact: Tony Barlow
tbarlow@keloland.com

Dates: May 2009 – August 2009

JOB RESPONSIBILITIES

KELOLAND-TV in Sioux Falls, South Dakota is looking for a summer weather intern. This position will provide an opportunity to experience television weather broadcasting from a state of the art weather studio in tornado alley. We are looking for someone who is serious about pursuing a career in meteorology and putting in some hours in the Storm Center during severe weather.

This job may also entail:

- Graphics work
- Forecasting
- Storm chasing
- Behind the scenes work during severe weather

QUALIFICATIONS

You must be going into your junior or senior year at an accredited college or university majoring in meteorology or a related field. Some experience and/or training in broadcast meteorology preferred. **Enthusiasm and a desire to learn and succeed are the most important qualifications.**

APPLICATION

Please send or email a cover letter, resume and a tape or DVD of any on air work to:

KELOLAND-TV
Attn: Storm Center
501 S Phillips Ave.
Sioux Falls, SD 57104
