

Lake Superior Carbon Cycle Postdoctoral Scholar

University of Wisconsin – Madison
Center for Climatic Research
and
Department of Atmospheric and Oceanic Sciences

A postdoctoral scholar is sought to investigate the carbon cycle of Lake Superior. The successful candidate will help develop and utilize a coupled physical / biogeochemical model of Lake Superior and be an integral part of a team that includes lake and terrestrial scientists seeking to understand air-lake CO₂ fluxes and their importance to the regional carbon budget. Applications are welcomed from candidates with backgrounds in ocean or lake biogeochemistry, and with experience or a strong interest in numerical modeling.

This is a one-year renewable position based on progress, ideally to begin in September 2007. Interested applicants should forward a curriculum vitae, contact information for three references and at least one publication to Dr. Galen McKinley, galen@aos.wisc.edu. Review of applications will begin July 31, 2007. The position will remain open until a candidate is identified. University of Wisconsin – Madison is an equal-opportunity / affirmative action employer and encourages applications from women and minorities.
